ALEXANDER MORRIS

(727) 455-2422 ◆ alexandermorris135@gmail.com
linkedin/alexandermorris2000 ◆ St. Petersburg, FL

Procurement Analyst with progressive experience supporting strategic sourcing, supplier performance, contract lifecycle management, and spend analytics across IT, treasury/exchange operations, and banking. Use Power BI and process improvement to strengthen cost visibility, contract compliance, and vendor decisions. Collaborate across business units to deliver measurable outcomes. M.S. in Supply Chain Management.

KEY CONTRIBUTIONS

- Developed an internal GPT-assisted procurement workflow that streamlined contract reviews, termination letters, and stakeholder communications. Reduced administrative workload by 5+ hours/week, increasing capacity for supplier negotiations and spend analysis.
- Leveraged Power BI dashboards to track key procurement KPIs, monitor supplier performance, and proactively identify purchasing exceptions in real time.
- Executed UAT and CLM process enhancements to streamline contract workflows across business units.

SKILLS & AREAS OF EXPERTISE

Strategic Sourcing ◆ Spend Analysis ◆ Supplier Performance ◆ Power BI
Contract Lifecycle Management (CLM) ◆ Supplier Negotiations ◆ Advanced Excel
Procurement Analytics ◆ AI Assisted Workflows ◆ Data Visualization ◆ Process Improvement

PROFESSIONAL EXPERIENCE

Raymond James & Associates, Inc., St. Petersburg, FL — 2025-Present

Procurement Analyst

Drive end-to-end indirect procurement and IT/software contract lifecycles across multiple business units. Manage high-volume commercial agreements, supplier negotiations for 40+ vendors.

- Manage $5M+ in strategic sourcing spend, including $2M across IT software/services, hardware purchases, and maintenance renewals.
- Secured 15% savings and 3-year rate lock by leading direct supplier negotiations to restructure an underperforming contract.
- Accelerated routine procurement cycles by a minimum of 10% by improving contract management workflows for lower-risk purchases while maintaining appropriate controls.
- Build Power BI dashboards across spend, supplier performance, contract lifecycle, savings, and operational KPIs to improve visibility and support sourcing and supplier decisions.
- Train leaders and cohorts in sourcing, contract lifecycle best practices, and AI assisted procurement workflows, strengthening team operational capabilities.

ICONMA, LLC - Raymond James & Associates, Inc., St. Petersburg, FL **2023-2025**

Procurement Analyst | 2024-2025

Engaged in end-to-end sourcing, stakeholder alignment, and supplier fulfillment across multi-unit operations. Managed $200k in monthly purchase order activity while managing supplier relationships, contract reviews, and tracking purchasing metrics with continuous process and commercial improvements.

- Captured 4% overall savings by leveraging supplier performance KPI data to guide negotiations and improve underperforming contract terms.
- Reduced data privacy risks by auditing vendor contracts and negotiated revised terms to meet compliance standards.
- Prevented payment delays and rework by identifying and reconciling 15+ PO matching exceptions, coordinating with stakeholders and suppliers to resolve root cause of discrepancies.

Procurement Contract Analyst | 2023-2024

Supported full lifecycle contract execution and management for 275+ contracts across the business. Utilized Excel, Oracle contract repositories, and procurement systems to improve organization, visibility, and accuracy across the portfolio.

- Piloted a cross functional Rapid Review system that handled 250+ transactions with zero delays or lost service. Refined the workflow to expedite supplier payments, reducing qualifying transaction cycle times to 10 days or less.
- Resolved 50+ monthly pricing, supplier-data, and contract-alignment discrepancies while improving data integrity and visibility across procurement records.
- Reduced downstream rework by collaborating across varied stakeholders to resolve operational issues using structured, repeatable solutions that eliminated incomplete or inconsistent contract information and supplier documentation.
